ORCID: 0000-0002-8984-9574

[LinkedIn](#) [GitHub](#)

I specialise in data modelling, digital scholarly editing and web development, and I implement digital solutions that facilitate research.

I help scholars to bridge the gap between computer technology and the humanities by working with them in collaborative and cross-disciplinary environments.

Colleagues and supervisors value me for my excellent communication skills, teamwork spirit and ability to independently acquire new technical and theoretical skills.

Research Projects and Outputs

[CoMByN \(2026-ongoing\)](#)

I work as the digital humanist of the FIS "The construction of Collective Memory in Byzantium: Towards a Network of Byzantine compilation literature across Europe and the Mediterranean" project. I am developing the digital synoptic edition of the *Loci Communes* and designing the manuscripts catalogue.

[VIDIT \(2025-ongoing\)](#)

I am one of the "best practices" subgroup's coordinators, which focuses on creating recommendations to guide the development of visualisation software tools.

Project-related outputs:

[PRIN ATLAS Project \(2024-2025\)](#)

PI: Marina Buzzoni (Ca' Foscari University of Venice)

- Analysed and modelled metadata for cataloguing digital humanities research outputs.
- Designed an ontology based on international standard vocabularies.
- Developed a SKOS [vocabulary of edition types](#).
- Wrote the project's whitebook, outlining applied methodologies and results.
- Developed a set of [guidelines](#) for creating FAIR (findable, accessible, interoperable and reusable) research products in the Digital Humanities.

[ERC European Ars Nova Project \(2019-2025\)](#)

PI: Maria Sofia Lannutti (University of Florence)

- Designed and developed the [web application](#) for digital critical editions.
- Developed XML/TEI and XML/MEI encoding models.
- Coordinated database design and implementation.
- Maintained the website.
- Organised dissemination activities and presented at international events.

[PhD Project \(2019-2023\)](#)

Supervisors: Maria Sofia Lannutti (University of Florence), Roberto Rosselli Del Turco (University of Turin)

- I developed the [Critical Edition Ontology \(CEO\)](#), an OWL ontology representing the field of digital scholarly editing, based on CIDOC-CRM and LRMoo standards.
- I developed a catalogue of software tools for digital scholarly editing.

[Marco Polo Digitale \(2018\)](#)

Supervisor: Eugenio Burgio (Ca' Foscari University of Venice)

I developed new features for EVT 2.0 (Edition Visualisation Technology) to adapt the viewer to the scientific requirements of the [digital edition of Marco Polo's 'Le Devisement du Monde'](#).

[Master Thesis Project \(2017\)](#)

Supervisor: Roberto Rosselli Del Turco (University of Turin)

Using AngularJS, I developed new features for the viewer EVT 2.0 (Edition Visualisation Technology), to optimise the user reading experience.
